# Top Global University Project

TOP GLOBAL  
UNIVERSITY  
JAPAN

This project selects Top Global Universities from among Japanese universities that are driving internationalization and offers prioritized support for university reforms. Top Global Universities are categorized into Type A (Top Type) universities that conduct world-leading education and research; and Type B (Global Traction Type) universities that lead the internationalization of Japanese society.

## — Basic requirements for Top Global Universities —

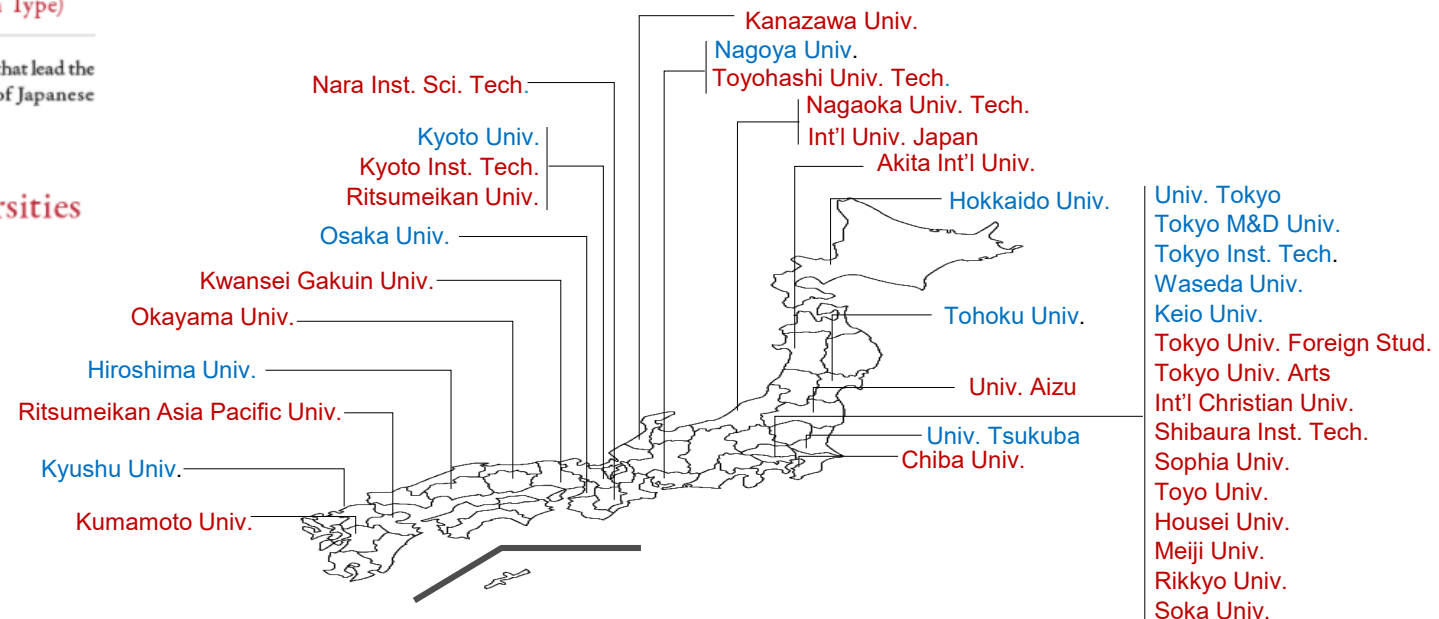

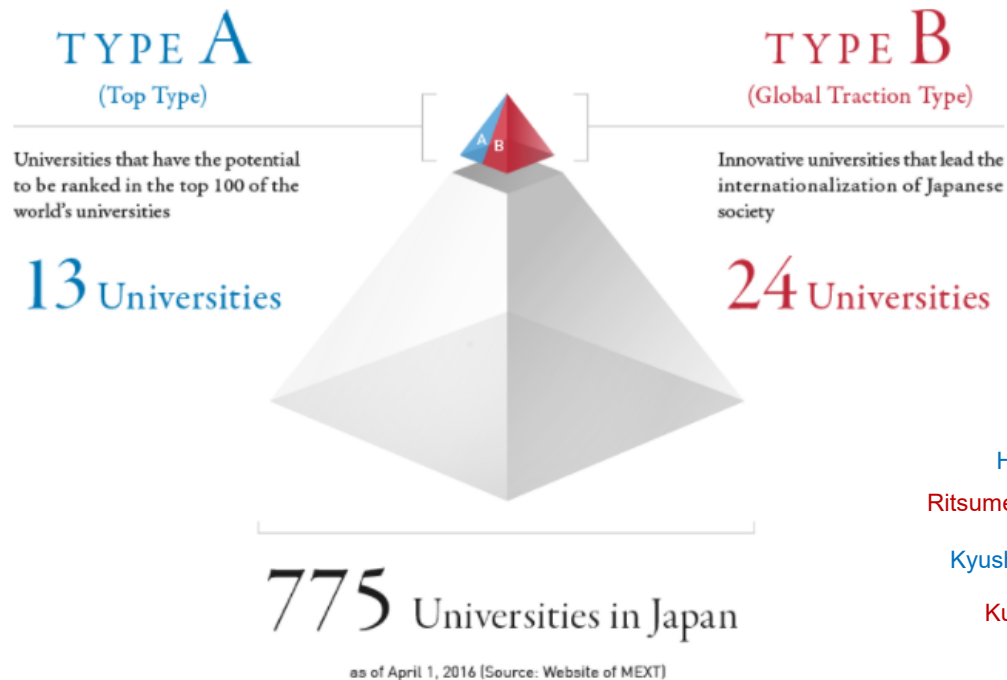

- Increase the ratio of international students and faculty
- Set performance indicators and fully disclose information
- Increase the number of courses in English ...etc

**Type A (Top Type)** 13 univs.

= The top type is for world-class universities that have the potential to be ranked in the world university rankings.

**Type B (Global Traction Type)** 24 univs.

= The Global Traction Type is for innovative universities that lead the internationalization of Japanese society, based on continuous improvement of their current efforts.

# What does “reputation” mean for a university?

An image about a university inter-  
subjectively held by its stakeholders

Stakeholders:

students, parents, researchers, alumni, employers, donors,  
governments, etc.

# Reputation Management (RM) for Universities

**An effort to strategically manage**

An image about a university inter-subjectively held by its stakeholders (e.g., students, researchers, alumni, employers, donors, governments)

Does “RM” for universities  
simply mean management of world  
university rankings (WUR)?

Major criterion for choosing products/ services  
⇒ **corporate reputation**

**Objective criteria** →  
e.g., stock prices,  
volume of sales

Major criterion for choosing a university  
⇒ **university reputation**

**No objective criteria**  
for university  
reputation

‘Rankings are proxies for university reputation’.

(Louise Simpson, World 100 Reputation Network)

A narrower conception of RM for universities  
as management of **W**orld **U**niversity **R**ankings

At the present moment, managing WUR is no doubt a big part of RM for universities.

Given the **full scope** of RM, however,  
RM is **NOT** the same as WUR management.

What, then, is  
a broader conception of RM for universities?

# WUR methodologies

## THE World University Rankings

	Metrics	Weight	
Teaching	Reputation Survey	15 %	30 %
	Doctorates-awarded-to-academic-staff ratio	6 %	
	Staff-to-student ratio	4.5 %	
	Doctorate-to-bachelor's ratio	2.25 %	
	Institutional income	2.25 %	
Research	Reputation Survey	18 %	30 %
	Research productivity	6 %	
	Research income	6 %	
Citations	The data are normalized to reflect variations in citation volume between different subject areas	30 %	30 %
International Outlook	Proportion of international students	2.5 %	7.5 %
	Proportion of international staff	2.5 %	
	International collaboration	2.5 %	
Industry Income	how much research income an institution earns from industry (adjusted for PPP), scaled against the number of academic staff it employs	2.5 %	2.5 %

Faculty/Student Ratio	20%
International Faculty Ratio	5%
International Student Ratio	5%

**Reputation**

# Reputation Survey: THE

You are asked to **nominate the universities** that produce the best research within your subject area.

## THE BEST RESEARCH UNIVERSITIES IN THE WORLD.

Please choose **up to 15 institutions** in the world (in **any order**) that you regard as producing the best **research** within your **subject area**. Please only think about **research** for this question.

Click [here](#) if you want to browse a list of institutions or check spelling. Otherwise, simply begin typing. If you cannot find the institution you would like to select in the list, please continue making your other selections from the list. You will then have opportunity to enter any unlisted institutions later on in the survey

*If you want to choose fewer than the requested number of institutions, please select "No further selections" before clicking on the >> button*

- London School of Economics - LSE (GBR)
- London School of Hygiene and Tropical Medicine (GBR)
- Barts and the London School of Medicine and Dentistry (GBR)

No further selections

You **don't get votes** in reputation surveys unless the respondents **recall** the **name of your university** at the very moment they answer the surveys.

Importance of  
**Top of the Mind Recall**

Save a handful of elite schools, Japanese universities do not have any substantive reputation to speak of.

For the majority of Japanese HEIs, RM is in effect an **activity to raise their name recognition**

**BRANDING ??**

As **names** become known only with **emotions/values attached**,

RM for little known universities is practically equivalent to **branding**.

**Brand**

A quality/ value that an organization promises to its clients

**A broader conception** of RM for universities as branding

- III. What is reputation management (RM)?
- IV. RM Unit's actions and the hosting of QS APPLE 2019**
- V. What RM did to Kyushu U: successes and failures

## Activities of Kyushu U's RM Unit: Three Phases

Phase	Activities
1 2014-2017	Build operational units (including RM unit)
	Secure executive buy-ins
	Strengthen “internal communication”
	Create a RM strategy
	Use and learn from corporate consultants
	Launch and develop IR office
2 2018-2020	Strengthen international PR (including the launching of Science Communication)
	Start consolidating Kyushu U alumni associations overseas
	Host internationally well-known conferences
	Run FDs/SDs on reputation management
3 2021-2023	Revamp strategies
	Strengthen global branding (including the appointment of VP in global branding)
	Strengthen science communication
	Share our experience with other HEIs in Japan through workshops and seminars

Created a special web page for QS APPLE. Carried out a major revision of the "research" section of the university HP.

Since the website was revised, we received over 3,700 accesses in a month (four times the previous year).

**From the program committee**

"Overall, the conference was a great success. Over 700 participants were the largest ever. Both the keynote lectures and concurrent sessions were qualitatively excellent. With strong involvement from Japanese universities, the feedback from the participants was overwhelmingly positive. The support from the staff and students at KyushuU was excellent. This event was a wonderful showcase for higher education in Japan. "

# QS-APPLE 2019: Issues and Concerns

- **RM's limits** → Need to strengthen research power
- What if we had no TGU budget . . . .
- What if it was held online . . . .
- New campus not fit to hold int'l conferences

**KYUSHU UNIVERSITY**

**OPEN  
MIND  
CREATIVE  
SPIRIT**

**Thank you!!**

# Back-up Slides

# RM in the wake of increasing rivalries among HEIs

- ❑ Liberalization of HEIs and increasing student mobility  
(since the late 1990s and the early 2000s)
- ❑ Increasing rivalries among top universities  
for talented students, excellent researchers, joint research partners,  
greater external funding, etc.
- ❑ The birth of World University Ranking  
Academic Ranking of World Universities in 2003
